English Writer Says Engines Built for Other Navies Are Being Used.

10 NEW BOATS SINCE JULY

prints an interesting article on Gernany's newest submarines, written by of Cardinal Mercier and was promptly A. P. Chalkley, editor of the Motor Ship stopped by the German military comand Motor Boat :

"There is not really much mystery prounding the German submarines. even of the latest type, and prior to the outbreak of war it was probably easier of Namur. for interested parties to gain information concerning the German vessels than any important details relating to the corresponding British craft.

"As everyone is aware who is ac quainted with the design of modern submarines, the chief problem in the construction lies in the oil engines used for propulsion on the surface. The exclusively of the Diesel type, using

sumably toward the end. It is not to be inferred definitely from this that the boat represents the forty-seventh actually built, since, apart from the fact that she may have been intentionally wrongly numbered, it is not at all necessary. It is not at all necessary it is to support tribulations in order to utilize them for the health of your souls.

"However' painful are our memories, let us first of all look back on our history. After several centuries of feetiles are our country finally desirable to follow. wrongly numbered, it is not at all neces eary that the vessels should be com-

eventh German submarine was only actively worked toward fer religious and intellectual, material and social decompleted in July last, and in the ordinary way it would be impossible to build twenty new craft in cight months, it is there a deeper aversion to the bloody quite likely that more than half this number has been commissioned. The reason for this state of affairs is inter-

Orders for Other Navies.

The hull and general equipment of a submarine can be built fairly rapidly and the longest time is required for the Diesel engines. The two firms previously mentioned, however, had on order for like a terrible hurricane bringing ruin the storm suddenly burst over our heads like a terrible hurricane bringing ruin the wake; once overwhelmed by this

These engines were certainly being built before the war commenced, but they must be looked upon mainly as experimental, and for several reasons it is

In an actual submarine.
"It is a very significant fact that the German naval authorities are not concentrating their attention upon the construction of large seagoing submarines only, since they have placed or-ders for a number of small craft of about 350 tons, to be used solely for coastal defence, apparently in case of a determined attack by the British navy."

Revue de Paris how he was received by Princess Charlotte, Duchess of Saxe-Meiningen, the sister of the Kaiser, at a meeting of that organization here weeks before the war began. The Duke was present and the conversation for a long time was taken up with running down the murders of the Archduke Prancis Ferdinard. In fact M. Blanche was convinced that no regret was felt by the relatives of the Archduke over his assassination.

Then the Duchess spoke of her brother,

Then the Duchess spoke of her brother. the Kaiser, declaring him to be "the workman of peace." His immost desire would be realized if the French understood at last that he was not their enemy. What efforts had he not made, what offers, what advances, all repelled swing to a want of confidence which he trusted enlightened men would at last

"Tell your people clearly." the Duchess said, "that they are mistaken about the Emperor. Our population is bursting our boundaries. It is so numerous and on boundaries. It is so numerous and increases with such rapidity that territory must be had to lodge it. My brother explains the situation to all heads of States. He does not wish to conquer, but to obtain, by exchange and for inestimable advantages guaranteed by him, lands where our militions of children can spread, grow and live. The German is prolific, he has still the family virtues. Tell that to your friends in Paris, make them understand it."

room of the New Highland Park Hotel has been converted into a place for playing indoor golf and is proving popular with the guests, many playing every night.

Arrivals at the New Highland Park Hotel to-day included Mr. and Mrs. Charles Warren Hunt. Among those starting for New York were Mr. and Mrs. Edwin Holden.

events we have passed through afforded a series of sad trials which show us exclusively of the Diesel type, using heavy oil, are built only by two firms. Krupp of Kiel and the Maschinenfabrik Augsburg-Nuernberg.

"A short time ago an account was given in the German papers of the maiden voyage of U-47, and it was stated that this boat started on her first trip some time in February, preference of the temptations which are liable to follow from your trials and to show you how from your trials and to show you how

is there a deeper aversion to the bloody struggles among peoples created to love sitting. It is there as deeper aversion to the bloody struggles among peoples created to love one another and against the destruction of lives so precious for the family, trade, industry and agriculture. It is therefore necessary both on account of these sentiments and on account of these sentiments and on account of the special condition of their country that the Bell-policy and agriculture is the sentiments and on account of the special condition of their country that the Bell-policy among peoples created to love one another and against the destruction of lives so precious for the special condition of their country that the Bell-policy among peoples created to love one another and against the destruction of lives so precious for the special condition of their country that the Bell-policy among peoples created to love one another and against the destruction of lives so precious for the family. gians should remain strangers to the

Sufferings of Diocese.

of these misfortunes which were more marked to build for foreign navies.

"These boats displace just under 900 tons of water when fully submerged and about \$40 tons when running on the surface, this being slightly in excess of the British E class, whose displacement is \$16 tons submerged. They are, of course, twin screw vessels and two Diesel engines, each developing about \$40 tons and the surface, giving maximum speed of nearly seventeen knots.

"The engines are six or eight cylinder machines, according to the type, and use heavy oil to the extent of about 100 gallons an hour at full speed. They are able to carry about 18,000 gallons of fuel, which gives them a radius of action of somewhere in the neighborhood of 3,000 sea miles.

"The engines are six or eight cylinder machines, according to the type, and use heavy oil to the extent of about 100 gallons an hour at full speed. They are able to carry about 18,000 gallons of fuel, which gives them a radius of action of somewhere in the neighborhood of 3,000 sea miles.

"They carry four torpedo tubes, two forward and two aft, while they are also armed with two fourteen pounder square listelf when not in use and can be brought into action within about a minute if the boat is on the surface. Electric motors are of cause employed for propelling the boats when under water.

> and nums? What use has it been for Belgium to spend so much money and work for the founding of schools and other institutions in order to send so many of her children to preach the Gos-pel to the heathen? They say as well; Our priests are ill treated and killed, our churches destroyed and profanated; honest, good people are more often the victims of the war than all others? Why all these trials? How is it that God allows them? And some do not even draw back from this blasphemous

> onclusion: God is not just: God does not care for us: God does not exist.
>
> "We frankly admit, dearest brethren, that we suffer more in hearing such words, especially if they spread among the people, than we do owing to all the misfortunes of the war itself. And for misfortunes of the war itself. And for this reason we beseech divine mercy to guide our pen while we strive to answer these objections, and we beg the Al-mighty to protect our people from such a temptation and to give them the

SCHOOL GRAFT IS CHARGED.

School, Concord, N. H., are expected here on Wednesday. Josef Hofmann will be here for several days with his family in their cottage.

Ferry in 1848, during the Mexican War, died to-day of voluntary starvation because of grief over the death of her two mistresses. Mrs. Ferry died on March 13 and Miss Ferry died on March 18. From the time of Miss Ferry's death the parrot refused to eat, dying after fifteen days. Linda could sing entire hymns, both in English and Spanish. She never knew what a cage was and occupied a place of honor upon all occasions. Her table manners were beyond criticism.

POTATO SHORTAGE TEXT

Special Correspondence to THE SUN Berlin, via London, March 12 .- Those who have carefully followed the trend dians are here, aming them being Gen Sam Hughes, Minister of Militia and of the German press since the beginning of the war cannot fall to notice a growing tendency toward independence of view and even criticism of the Government. While during the first half year of the great conflict journalistic Germany was eagerly bent upon preserving harmony, avoiding the slightest criticism and concealing opposition behind the charitable mantle of "patriotic unity." there have been of late some significant symptoms of a general movement toward

the prisoners, soldiers, civilians and priests, who est the hard bread of exile and captivity. Added to the sorrow for their absence is that, equally great for us, of being deprived of news about their sad fate.

"And what must we say about the market is the priest of the British declaration of a food block and against Germany the German stomach is beginning to growl, and this not by any means as a consequence of present hunger but in anticipation of the priest of the pries

over the ruins of churches, schools, of Agriculture, made a speech designed parish houses, mansions and often of to calm the people of the fatherland on entire villages which were destroyed, the subject of a possible shortage of poof Agriculture, made a speech designed

not run short of potatoes if we economize. 'All indications are' that great quantities are still being held in store.

'These are phrases in the Minister's speech which dispose of the most serious and most important of all questions, namely, whether we will have a sufficient rotate supply at the end of May or the beginning of June. It is the gravest question now confronting Germany! How can a Minister of the State Park Avenue Hotel.

"Does it not remind us of the French Minister Ollivier, who in 1870 announced colemnly before the Chamber of Deputies that it was with a 'light heart' that he bore the responsibility for the war-the man who since has been famous as
